Open Up to Exploration...

"In my experience, each adventure, every exploration starts when you take that first step outside your comfort zone and there's a little tingling feeling that goes with that. I suspect that everyone gets excitement from that step.

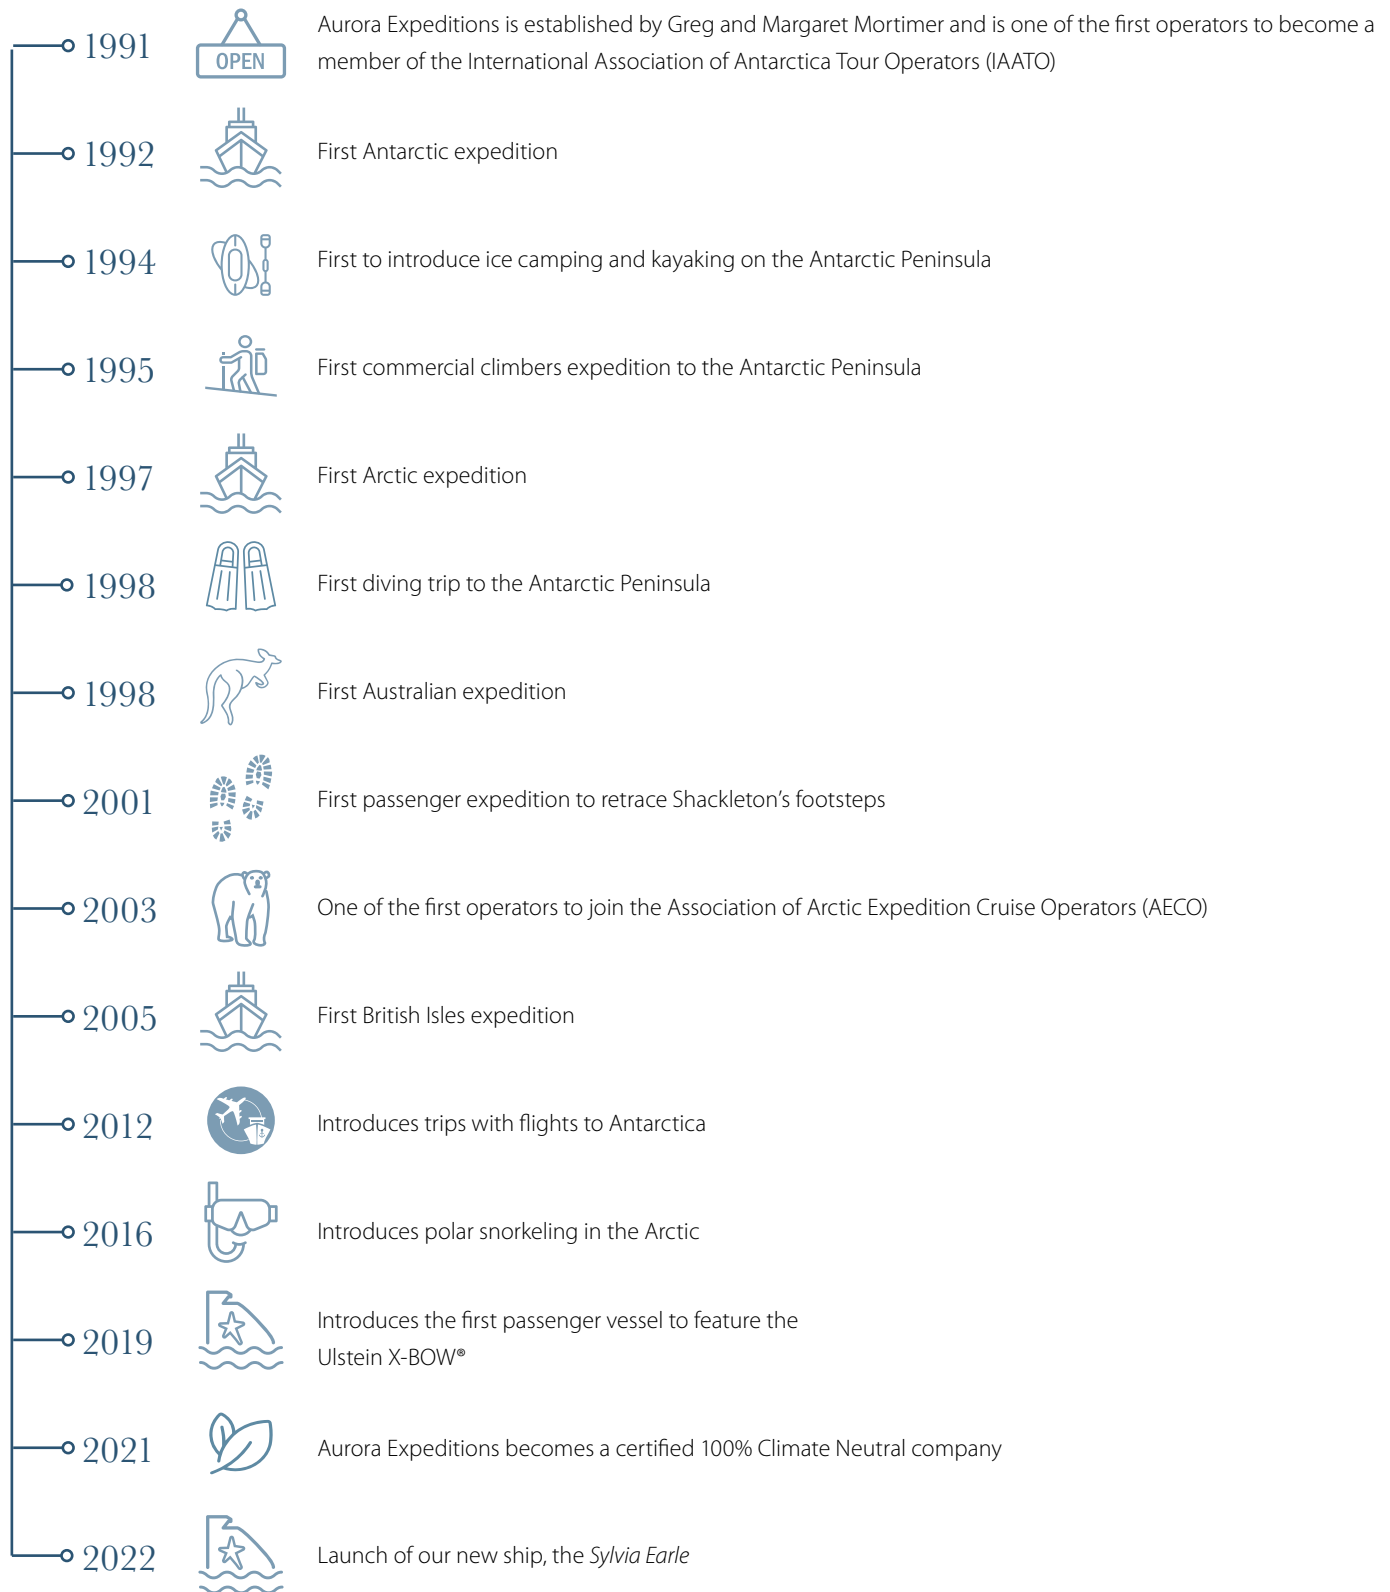

I have found that in the great mountains, the big oceans in the world and in the polar regions in particular, the things you learn from adventures are all the more poignant – and strong. I suspect that everyone has a sense of that need – and that was the spark that we saw that led us to start Aurora Expeditions.

We want to travel with like-minded people. Open up to exploration in your own way with us."

— **Greg Mortimer OAM**
Aurora Expeditions Founder

32 Years of Experience

Our Story

For over 32 years we have been taking adventurous travelers to Antarctica, the Arctic and beyond.

Responsible travel is at the heart of our ethos. We are committed to pioneering discovery and adventure on small-ship expeditions with like-minded people, changing the way people see the world.

Founded by legendary mountaineer **Greg Mortimer** and his wife Margaret, Aurora Expeditions first started taking small groups of friends and keen travelers to Antarctica in 1992. Aboard small, ice-strengthened vessels, they took groups of intrepid explorers to places that few, if any, had been before, pioneering a long list of 'firsts' along the way.

In 1994 Aurora was the first company to introduce camping and kayaking into our Antarctic itineraries, 2001 brought an expedition created to retrace the legendary Sir Ernest Shackleton's footsteps and in late 2019 we launched the *Greg Mortimer*, the world's first passenger ship to feature the revolutionary Ulstein X-BOW® for smoother sailing and fuel efficiency. In 2021, we became a Climate Neutral business.

Aurora has always been about relationships, and we have an informal and experiential approach to expedition travel. Joining the Aurora family means forming lifelong relationships with us and your fellow expeditioners. We have the ultimate itineraries, small groups, exceptional Expedition Teams and travel to make a positive difference.

This is why we give back to destinations we visit through our participative Citizen Science Programs, our Women in Conservation Program and we look after the environment by carbon offsetting our expeditions. And when you disembark, we want you to be richer in your knowledge and understanding of our planet than you were when you stepped aboard.

We are purpose-driven and we're honored to receive awards from travel communities that recognise the difference we can make.

And now that we have two new small-expedition ships, *Greg Mortimer* and *Sylvia Earle*, our spirit of adventure and discovery remains as strong as ever, as we continue to keep exploring the most perspective-altering destinations on our planet.

If you're ready for your own adventure, join us for a life-changing experience and travel that has a positive impact.

Unforgettable Memories

"I have told people that the overwhelming feeling while in the Antarctic was that it was MORE . . . more majestic, more pristine, more beautiful, more fragile, more everything. I would absolutely recommend your company to anyone else considering a polar expedition. The entire trip was so much more than I could have imagined."

— S Grieve, Antarctica 2022–2023 season

"I'll be recommending Aurora Expeditions to anyone thinking of booking a similar trip. Far exceeded all of my expectations. We saw way more of Antarctica than I had expected, and the variety of locations kept things interesting throughout. What an incredible team you've put together! Everyone on the ship knew our names within about two days – that made us feel like we were special."

— C Kintner, Antarctica 2022–2023 season

"The whole experience was truly magical. I cannot imagine a better Antarctic tour operator. From booking to embarkation to some tough weather everything was handled so well . . . we always got outings and the Expedition Team was so good at finding us cool spots to go to. I cannot recommend y'all enough, the trip was pure magic. Snorkeling WAS SO FUN!!!!"

— M Matthews, Antarctica 2022–2023 season

"Antarctica is by far the premier wilderness destination on this planet. We absolutely loved everywhere we went . . . A superlative experience. We are very widely traveled over many years but this was our best trip ever!"

— R Hughes, Antarctica 2022–2023 season

"Wow, wow, wow! This is a first-rate run operation and one of the most immersive, spectacular adventures I've ever had in my years of world travels. You'll have two expeditions per day and each one will provide new experiences. The Sylvia Earle is beautiful and staffed by a professional crew (about 1:1) and the daily expeditions are expertly and safely run. Can't say enough about Aurora."

— G Oja, Antarctica 2022–2023 season

"Went on this expedition to Antarctica, South Georgia and the Falkland Islands with high hopes and expectations. These were exceeded in every way. The landscape, of course, is extraordinary but the Aurora Expedition Team made our experience even more so. We left the ship for landings, Zodiac trips and snorkeling trips at least twice a day and had fascinating lectures and presentations on the wildlife, the geology, the history and even the constitution. There were Citizen Science projects to become involved in and the enthusiasm for what we were doing infused everything. The Sylvia Earle is a remarkable ship too, in the hands of the Bridge Team it was comfortable in every sea condition and able to get into extraordinary places. It was the trip of a lifetime."

— J Walker, Antarctica 2022–2023 season

"This was a truly memorable experience. The Sylvia Earle is a beautiful ship and every aspect of the onboard experience was first class. From the time we boarded by zodiac to our disembarkation in Ushuaia the staff and crew could not have made us feel more welcome. The trips in the Zodiacs and the landing experiences were also wonderful. We would recommend this to anyone considering an Antarctica experience."

— D Miller, Antarctica 2022–2023 season

"Fantastic Antarctic adventure aboard the Sylvia Earle. She's a great ship and we found everything about our experience to be first rate. Loved the crew, the ship facilities, the food and the activities. So highly recommended."

— S Digel, Antarctica 2022–2023 season

Our Ships

Designed for Discovery

Our two expedition ships are both new to the fleet and are designed for discovery. These ultra-modern, purpose-built ships use the latest advances in design and technology, truly revolutionising the small-ship experience.

Our ships, the *Greg Mortimer* and the *Sylvia Earle*, are a base camp for adventure and are capable of exploring the farthest reaches of the planet. The Ulstein X-BOW® makes sailing smoother and faster, is designed to leave the marine environment undisturbed and allows for incomparable up-close encounters with nature.

The *Greg Mortimer* honors Aurora Expeditions' founder, explorer, mountaineer and all-round dynamo, Greg Mortimer OAM. The *Sylvia Earle* is named after leading conservationist, marine biologist, oceanographer and explorer, Dr Sylvia Earle. In 1998, Sylvia Earle was the first person selected as 'Hero for the Planet' by *Time* magazine and she is dedicated to protecting the world's oceans.

Every stateroom features an ocean view and nearly all include balconies. Our staterooms and suites range in size and spaciousness to suit a variety of priorities. And while you are making enriching discoveries and new friends, your ship has everything you need to maximize relaxation and comfort (including heated floors in the bathrooms on polar voyages).

The gym, sauna, cosy library, restaurants, bar and presentation theater all feature floor-to-ceiling windows. There are outside decks, and also observation wings that extend outwards either side of the ship when something exciting is happening.

Greg Mortimer

Explorer Greg Mortimer is a veteran of almost three decades of Antarctic research, mountaineering and polar travel – a true icon in the field of adventure.

We are privileged to be able to pay tribute to his extraordinary achievements and have named our new, custom-built expedition ship the *Greg Mortimer* to honor his legacy – embodying his incredible spirit of adventure and exploration.

On 3 October 1984, Greg and his expedition partner Tim Macartney-Snape became the first two Australians to reach the summit of Mount Everest, and even more impressively – they did so without the aid of supplementary oxygen. From there, Greg went on to climb K2 and Chongtar – again, without supplementary oxygen.

Since scaling some of the world's highest mountains, Greg has been awarded an Order of Australia (OAM) for his services to mountaineering and has received three Australian Geographic Society Medals.

After working together on the Australian Bicentennial Antarctic Expedition in 1988, Greg Mortimer co-founded Aurora Expeditions with his wife, Margaret, with the aim of sharing their incredible experiences with like-minded wanderers of the world.

Greg and Margaret's aim was simple – to take small groups of travelers on voyages of discovery to regions that inspired them, thereby creating lifelong ambassadors for the preservation and protection of these sacred places.

"Aurora Expeditions goes over the horizon. The team gives the gift of nature to people and also gives the gift of sustainability as well."

— **Greg Mortimer OAM**
Aurora Expeditions Founder

In 1992, Greg and his team embarked on their first voyage as Aurora Expeditions to Antarctica. Now, 32 years on, Aurora Expeditions still leads smaller groups to remote and breathtaking destinations all over the world, and has grown to offer passengers a wide range of action-packed activities such as polar snorkeling, sea kayaking and alpine crossing, all inspired by Greg Mortimer's great sense of adventure.

We invite you to embrace this spirit of unbridled exploration and join us on a voyage to some of the planet's most extraordinary, wild and rugged landscapes.

Dr Sylvia Earle

Once in a blue moon, not to mention a deep blue ocean, we are blessed with a partnership that fills us with an extraordinary sense of excitement, anticipation and hope for the future of the planet. That time is now.

We are honored, humbled and delighted to welcome and introduce the incomparable Dr Sylvia Earle as the newest member of the Aurora Expeditions family. Launched in 2022, our brand new, purpose-built expedition ship *Sylvia Earle* is named in her honor and pays tribute to her lifelong contributions to ocean conservation. We will be unveiling other exciting conservation and environmental programs in partnership with Dr Earle in the future.

Renowned oceanographer, marine biologist and explorer, Dr Earle was the first female Chief Scientist of the US National Oceanic and Atmospheric Administration. A National Geographic Society Explorer-in-Residence since 1998, she was named by *Time* magazine as its first 'Hero for the Planet' that same year.

Her key conservation initiative Mission Blue is creating a global network of marine protected areas, known as 'Hope Spots'. These richly biodiverse marine environments – which our ships will visit on various voyages – are critical to the health of our oceans, which in turn helps to safeguard the future wellbeing of the planet.

Now a valued partner of Aurora Expeditions, Dr Earle aims to educate and inspire people to become ambassadors for the vast but vulnerable marine world. 'Our goal is literally to inspire a network of hope – one place, one community, one vision at a time – but together around the world,' she says.

We invite you to join Aurora Expeditions, Dr Earle, our Expedition Team and entire crew, in perspective-altering voyages to some of the most remote, unique and spectacular places on the planet – from the Arctic to Antarctica and an array of fascinating destinations in between.

"Immerse yourself in the ocean and be connected to the places that you go," says Dr Earle. "Don't go just to absorb, go to give back and share what you've learned elsewhere, connect with the locals, open people's minds. It's a wonderful opportunity to embrace the world and see it with new eyes."

— Dr Sylvia Earle

What Makes Aurora Expeditions Different?

The Aurora Difference

You might have noticed that we do not call it a cruise, but experiential travel. For over 32 years, we have pioneered travel that inspires hearts and minds and makes dreams come true.

Smaller Groups

At Aurora, we believe small groups make a big difference. We take an average of 132 expeditioners per voyage. This leads to smoother transitions, longer and more relaxed landings and a more intimate experience.

Expert Guides

Our highly acclaimed Expedition Team members are, quite simply, the best in the business. Once you step on board, our Expedition Specialists will welcome you to a close-knit team and inspire you to see our planet's wild places differently. Our team members have always been about sharing their passion, knowledge and understanding of some of the most remote and unspoiled destinations.

New Purpose-Built Small Ships

Our two purpose-built small-expedition ships are both brand new and are designed to respond rapidly to any weather condition in the wild and remote places we visit. The environment is our priority. To ensure non-intrusive and low impact voyages, the *Greg Mortimer* was the first ever passenger ship to feature the revolutionary Ulstein X-BOW®, which crosses oceans more comfortably and efficiently. Our expansive observation decks and hydraulic viewing platforms bring you even closer to the natural environment. Our ships serve as spacious and comfortable base camps for adventures. Plus, our small, ice-strengthened ships allow us to land in more locations than larger vessels can.

Spirit of Adventure

We explore differently. We have always encouraged our expeditioners to experience the wild places in a range of different ways. We remain true to our ethos and our focus is on getting our expeditioners off-ship as much as possible with multiple landings every day. Our purpose-built ships enable us to deliver a world-leading activities and shore excursion program. Whether you plan to kayak, hike, climb, ski, snorkel or dive, our expert guides have the expertise and knowledge to help you safely push the boundaries of your experience, while sharing their love of adventure with you.

Relaxed Onboard Atmosphere

We hope you will enjoy our warm, informal and relaxed style on board. Aurora has always been about relationships, and we hope that after an expedition with us, you will have a relationship with Aurora and some of your fellow expeditioners that will last a lifetime.

Education and Enrichment

With education and enrichment at the heart of the way we explore, we have programs that feature experts and special guests in the fields of exploration, conservation, science, photography, art, culture and more, to enrich your expedition with their unique perspectives, insights and experiences, as well as the opportunity for all expeditioners to participate in Citizen Science Programs.

We want you to be inspired and connect more deeply to the places, wildlife and people on your expedition, because when you disembark, we want you to be richer in your knowledge and understanding of our planet than when you stepped on board.

Included Extras

Whether it is an expedition jacket to keep, charter flights or pre-/post-voyage accommodation, our inclusions are what most others would consider extras. For a full list of inclusions for each voyage, please view the itinerary page on our website.

Solo Travelers

Expedition cruising is such a fantastic choice for solo travelers, giving them the chance to experience the world's most remote and incredible destinations with like-minded travelers and our expert guides, while on board our small, social and welcoming ships.

Our landings and activities are all conducted in small groups. You will be able to explore at your own pace, pushing your limits of adventure. You will be surrounded by fellow expeditioners with a shared spirit of adventure, having an amazing experience, making new friends – and the memories are yours to keep.

Aurora Expeditions has some great options for solo travelers. If you would like to share accommodation with another expeditioner of the same gender, we will be happy to try to make it happen for you.

Great for Groups

Expeditions make great adventures for groups. Our ships play host to many groups of varying sizes and include photographers, birders and wildlife enthusiasts.

Our unique style of expeditions and our highly experienced onboard teams make for great group adventures.

Whether you are a travel agent seeking to take a group directly, or a professional photographer or special interest expert promoting a group to your own network of contacts, we have the itineraries and activities to suit.

Special Guests

Our regular Special Guest Program matches inspiring and educational guests from around the world with selected voyages, where they can share their expertise and personal insights into the incredible and remote destinations that Aurora Expeditions travels to.

You can find details of the program on our website.

We Care.

A sustainable future has never been more important. We see expedition travel as a force for good. We are accelerating meaningful changes in our ongoing care for the planet programs and are active in doing more to help make a positive impact on the planet.

We have an ongoing commitment to responsible, respectful travel. As one of the first operators to become a member of IAATO and AECO, we take our responsibility seriously.

We are curious; we are passionate. For us it is about good decisions, and inspiring action through our focus areas.

We are about supporting and empowering people, communities, the places we visit, the extraordinary wildlife we encounter and the nature we connect with.

Our Planet: Minimal Footprint

We are 100% Climate Neutral. Our ships use the innovative X-BOW® design, which reduces fuel consumption

We are committed to eliminating unnecessary emissions and reducing our footprint

We are investing in two partnerships with South Pole world leaders, specializing in emission-reduction projects and strategies

We calculate our emissions and offset annually.

Project 1: Biodiversity in South Australia

We invest in a biodiversity conservation project in Australia. Mount Sandy Conservation on South Australia's Limestone Coast promotes conservation partnerships between the traditional Ngarrindjeri landowners and non-Indigenous Australians through vital conservation work. The program ensures permanent protection of a regionally and culturally important pocket of biodiverse-rich land.

Project 2: Wind Renewables in Taiwan

We invest in InfraVest Tongyuan Windfarm, a renewable energy project in northwest Taiwan harnessing wind power for a sustainable and secure energy future.

We Are Creating a Sustainable Food Program

We are setting up and improving regional supply chains. We are working closely with suppliers that encourage regenerative farming and nature-based farming principles. We engage with suppliers in Europe, Chile, Argentina and the US to deliver regionally inspired farm-to-table experiences on board.

Education and Enrichment

Creation of a platform for exploration, discovery and knowledge

Education and enrichment through lectures and briefings on board and ashore

Extensive resources in our onboard libraries

Enhanced participative Citizen Science Program – 7 projects on board

Dedicated Citizen Science Center on board the *Sylvia Earle*

Women in Conservation Program and opportunities to give back

Unmatched knowledge from our Expedition Team and special guests

Expeditioners are given a firsthand opportunity to contribute to data and science

Ultimately, the aim is to create ambassadors for the planet

People and Community

A team of diverse, motivated people

We form meaningful partnerships

Environmental Management Systems

Efficient energy, water and waste management on vessels

Reusable water bottle (on request), and refill stations on board

Reduced single plastics on board via CMI-L's Green Program

Eco-friendly products and cleaning on board and in the office

We are always seeking ways to innovate, educate and make a positive impact.

Some of our future projects and goals are:

- Improving supply chains
- Working towards B-Corp Certification

For us, it is about help and hope

Help make a **positive impact**

Build our **legacy** with the planet

And **hope** for a brighter future

Travel for good.

Life on Board

The spirit of Aurora is about shared experiences and making new friends. We have an intimate and relaxed atmosphere on board. After making enriching discoveries off-ship, return to relax or explore and learn more on board.

VIEW the incredible landscapes and wildlife through floor-to-ceiling windows that face every direction. Find a spot on the vast outside decks, or the dedicated observation areas, which include our unique viewing platforms that extend out either side of the ship, so you can get close to the real show outside.

FEEL AT HOME in the comfort of your spacious and well-appointed stateroom or suite. Most include balconies and all include private bathrooms with heated floors, which are a standout for travel in the polar regions.

JOIN the early risers for pastries, coffee and tea in the lecture theater.

DINE and swap stories with new friends in our informal restaurant, or have a coffee or drink at the bar.

ENJOY welcome drinks with the captain and Expedition Team.

TRY our gym, sauna, jacuzzi, or soothe the body with a massage in our wellness center.

STAY HYDRATED sustainably with our complimentary reusable water bottles (on request) and water refilling stations throughout the ship.

ATTEND an enriching presentation, lecture or talk by our experienced Expedition Team or special guests on a variety of topics.

RELAX and unwind in the comfort of our well-stocked library.

GET READY for adventure in our mudroom and activity prep area, with individual lockers for all your complimentary expedition gear and equipment.

Activities to Put You in the Action

The real adventure happens off-ship. Our expeditions are all about more opportunities for you to get off-ship to explore and connect with the remarkable destinations we go to.

We have the most comprehensive activity program, supported by the most experienced Expedition Team on hand, dedicated to making each experience action-packed and immersive in the natural environment.

Some activities are included in your expedition, while others are optional and cost extra. Some activities need to be booked in advance.

There are activity options for everyone, regardless of experience or skill level. And there is always the opportunity to try something new. How you experience the destination is entirely up to you.

**All our landings, adventures and activities are subject to weather conditions, and activity options do vary by itinerary.*

Included Activities

Our expeditions are designed to put you in the action as much as possible. To maximize your time in the incredible destinations we visit, we offer a range of included activities as part of your voyage.

Polar Plunge

A time-honored tradition, the polar plunge is a celebrated optional rite of passage for polar travelers. Take the plunge to cheers of encouragement from all on board! NB: This activity is available on selected expeditions only, weather permitting.

Guided Hikes

Adventurous hikes for all abilities are offered on our expeditions, guided by our expert Expedition Teams. Explore historical ruins, stroll rocky shores, admire local flora and fauna, or scale heights to delight in spectacular vistas.

Photography

Our photography guides offer onboard lectures that are filled with handy hints to improve your camera and photography skills, and will help you capture those memorable moments in the field during excursions.

Zodiac Cruises

Explore rocky coves, marvel at spectacular glaciers and icebergs, discover secluded bays and search for wildlife in hard-to-reach places in our fleet of trusty Zodiacs – sturdy and heavy-duty inflatable rubber speedboats.

Optional Activities

Your expedition can be as active as you want. We have the most comprehensive activity program and offer an unrivalled array of activities so you can reach new limits and live out your wildest dreams.

Choose from a large selection of optional activities led by our professional and passionate Expedition Team.

Sea Kayaking

Take Your Best Shot

Bring your expedition stories to life with the best photos you will ever take.

We have award-winning professional photographers on board every voyage to inspire, guide and assist you. Every passenger, from smartphone user to semi-professional shooter, can benefit from our experts' deep professional knowledge – picking up tips, learning new skills and taking some awe-inspiring photos.

Every minute of every destination we explore provides extraordinary photo opportunities, so there will be so many incredible moments to capture and so much you will want to shoot!

As our photographers love to share their skills with photo enthusiasts of all levels and also offer informative onboard presentations and supportive tips, you will be taking snaps of extraordinary moments in no time.

Happy shooting!

"The sense of adventure and exploration inspires me to capture the essence of some of the most amazing places on the planet. Every day is a new experience, a visual feast for all the senses. It allows me to explore my creativity and passion for photography and interpret the world in completely different ways."

— **Scott Portelli**, Australian multi-award-winning wildlife photographer and member of the Australian Institute of Professional Photography (AIPP)

"What I love about expedition photography is that it allows me to combine my pursuit of images with a fantastic travel experience to many of the most remote, beautiful and challenging environments on the planet. The continually changing land, sky and seascapes seen from the ship, and the close-up encounters with icebergs and wildlife afforded by Zodiac cruises and beach landings, present endless opportunities for capturing a diverse range of great images."

"I also love that I don't have to pack my bags to move on to the next destination; the ship takes care of that."

— **Richard l'Anson**, award-winning Canon Master, World Nomads Mentor, and Australian Himalayan Foundation Ambassador

"What I love most about traveling with Aurora Expeditions is that the group isn't too big and you get to meet everyone – it's like a big family and everyone is buzzing because of where they are. For a photographer, a ship is the best shooting platform ever. You go to sleep and wake up in a new location, and you can shoot from the ship, from a Zodiac or from shore. There's so much variety and it's always changing."

— **Peter Eastway**, editor of *Better Photography* for over 40 years and two time winner of the Australian Professional Photographer of the Year

Give Back and Get Involved in Citizen Science

"Our goal is literally to inspire a network of hope – one place, one community, one vision at a time – but together around the world."

— **Dr Sylvia Earle**, oceanographer, marine biologist and explorer.

Travel is always the best educator and we offer the chance to enrich your curiosity and expand your knowledge and understanding of the places we travel to. There is no better learning opportunity than being in the field with subject-matter experts.

Our Citizen Science Program is designed to be an interactive forum for like-minded travelers to share new discoveries and deepen their connection to the natural world in a relaxed, informal and fun environment – on board our ships, on our fascinating shore expeditions and in our Zodiacs.

You can make a difference because your participation enables us to provide invaluable data to the scientific community. You too can become an ambassador for the protection of our majestic but fragile blue planet, by sharing what you have learned when you return home.

How Does it Work?

Members of our passionate Expedition Team, together with a Citizen Science Coordinator, will be on hand to introduce and assist you with the projects being conducted on your voyage.

Expert guidance on the collection, storage and sharing of new scientific data will not only greatly enhance your voyage experience, but also help you gain more knowledge of our ever-changing natural environment.

From the biggest mammals to the smallest marine creatures, the important part you play in our Citizen Science projects will help protect and preserve the planet for generations to come.

Our Projects

Our seven dynamic and diverse Citizen Science projects – focusing on whales, seabirds, microplastics, weather patterns, phytoplankton, polar fjordlands and marine biodiversity – have been hand-picked for their ground-breaking work and global achievements:

- Happywhale
- Seabird surveys
- Microplastic survey
- NASA Globe – Cloud Observations
- Secchi disc
- Fjord Phyto
- iNaturalist

**Citizen Science projects are location and weather dependent and not all projects are able to be operated on every voyage.*

Out here, experience matters.

Embark on the adventure of a lifetime with Aurora Expeditions, where you'll travel alongside the most dedicated, experienced, passionate, and skilled Expedition Team in the industry.

Our team's knowledge of the destinations we visit is unparalleled, as they encourage you to push your boundaries and explore some of the most breathtaking locations on the planet.

With our small group approach to big adventures, we offer a high ratio of Expedition Team to passengers, and safety is always our top priority. Let us help you make unforgettable memories and get the most out of your expedition with us.

Howard Whelan

Home: Australia

Background: Howard joined Greg Mortimer on the first Australian ascent of Mount Everest as cameraman before going on to become the founding editor of *Australian Geographic*.

Language: English

Favorite Expedition: It is a tie – the Ross Sea and Antarctica.

Advice: Put your camera down and take in the sounds, smells and beauty.

Elena Wimberger

Home: North America

Background: Elena is a certified polar guide and has backpacked 4,000 kilometers (2,485 miles) across the US, from the Mexican border to Canada, as well as through Patagonia and New Zealand.

Language: English

Favorite Expedition: Shackleton's Crossing.

Advice: Get involved with as many activities and educational lectures as you can – there is so much to absorb!

Ashley Perrin

Home: North America

Background: With over 209,215 kilometers (130,000 miles) under her belt as a skipper offshore and a dual major with honors in geography and oceanography, Ashley became the first female boating officer in Antarctica with the British Antarctic Survey.

Language: English

Favorite Expedition: Antarctica.

Advice: Get involved with a Citizen Science Program and contribute to the world.

Tarn Pilkington

Home: New Zealand

Background: Tarn started skiing when he was four and has been on the slopes ever since. He is a year-round International Federation of Mountain Guide Association (IFMGA) ski guide, Air Ambulance Service crew member and Alpine Cliff Rescue team member.

Language: English

Favorite Expedition: South Georgia

Advice: There is a great saying we share on board: 'There is plenty of time to sleep when you get home.'

Isabelle Howells

Home: United Kingdom

Background: A passion for marine biology and the environment has taken Isabelle to the Arctic region, where she worked as a whale-watching guide and trained as a commercial sailing skipper.

Language: English, French

Favorite Expedition: The Antarctic Peninsula, South Georgia and the Falklands.

Advice: The longer you stay out on deck, the more you are guaranteed to see.

Daniel Stavert

Home: Australia

Background: With a love for both training and teaching, Daniel has spent over a decade leading groups in kayaking, climbing and trekking in remote Tasmania, the islands of Scotland, and the coast of mainland Australia, and Antarctica.

Language: English

Favorite Expedition: East Greenland.

Advice: Take a waterproof backpack so you can focus on experiencing every moment and not worry about the splashy waves!

Nina Gallo

Home: Australia

Background: Nina has spent many years adventuring in the wilderness, rock climbing, hiking and exploring. She loves the moment when something amazing and unexpected happens and the day's plans go out the window.

Language: English

Favorite Expedition: Antarctica. I love the extremes.

Advice: I encourage all guests to seek out a moment of silence, stillness and solitude.

Dr John Kirkwood

Home: Australia

Background: A deep love of travel, the natural world and exploration has kept John involved with polar and marine research for more than 30 years.

Language: English

Favorite Expedition: South Georgia: one of the great wildlife experiences on the planet.

Advice: Be up for adventure, be flexible and take every opportunity.

Max Seigal

Home: United States

Background: After completing his studies in biology, Max set off traveling with a camera in hand. He became a National Geographic Certified photo instructor, guiding photo trips around the world.

Language: English

Favorite Expedition: Antarctica – there's nowhere like it in the world.

Advice: Go to as many lectures as you can! This is the best opportunity to learn from the experts on board and ask questions.

Dr. Ulyana Horodyskyj Pena

Home: United States

Background: Ulyana has a unique blend of academia and experience in extreme environments, with extensive knowledge of geology, glaciology, astronomy and climate, alongside advanced experience in mountaineering.

Language: English

Favorite Expedition: Antarctic Peninsula.

Advice: Enjoy the landscape, pay attention to what you're feeling and use your senses.

Leopoldo Soibelzon

Home: Argentina

Background: Leo has a degree in biology and a PhD in natural sciences, majoring in the study of South American carnivorous mammals and is currently a principal investigator at CONICET. He has lived every kind of Antarctic experience.

Language: English, French, German

Favorite Expedition: Antarctica!

Advice: In Antarctica, go out on deck to breathe the icy air and 'listen' to the overwhelming silence.

Scott Portelli

Home: Australia

Background: Scott has been awarded BBC Wildlife Photographer of the Year and the Sony World Photography Award and is now credited with being one of the world's best wildlife photographers.

Language: English

Favorite Expedition: Antarctic Peninsula and South Georgia.

Advice: Get involved with all aspects of expedition, adventure, socialising and learning while you are with us.

Lauren Farmer

Home: Scottish Highlands

Background: Lauren has spent eight austral and boreal summers as a polar guide. She is a proud Fellow of the Explorers Club, a certified Senior Guide and co-founder of the Polar Citizen Science Collective.

Language: English

Favorite Expedition: Wrangel Island.

Advice: Pay special attention to how you feel in Antarctica. Once you return home the clarity and calm will return when you most need it!

Michael Baynes

Home: Australia

Background: Completing an environmental science degree enabled Michael to pursue his love of nature and wildlife. During his time working as an environmental scientist, his passion for photography really came to the fore.

Language: English

Favorite Expedition: East Greenland, due to the dramatic landscapes and icebergs.

Advice: Regardless of experience or camera equipment, everyone can create beautiful images by focusing on the light.

Eamon Larkin

Home: Australia

Background: Eamon has been an expedition guide in Australia and abroad since 1995. He loves supporting people to move beyond their comfort zone to experience new things.

Language: English

Favorite Expedition: Looking forward to exploring the new itineraries for this season.

Advice: Take a quiet moment on your own, indulge your senses and be mindful of how you feel in the environment.

Alex Chavanne

Home: United States

Background: Alex started guiding along the west coast of North America, before moving on to Patagonia and then Antarctica.

Language: English

Favorite Expedition: Northeast Greenland.

Advice: Go to all the lectures. It is the best way to gain a deeper understanding of where you are going, to hear stories about the destination, and also to get to know the Expedition Team.

Ivan Klochkov

Home: Russia

Background: Growing up, Ivan went on all kinds of outdoor adventures, kayaking through Kamchatka, hiking in Nepal and Turkey and wandering in India. After studying hospitality management, Ivan has been working as a sea kayaking guide for the last five years.

Language: Russian, English

Favorite Expedition: The wild Kamchatka Peninsula.

Advice: Explore, test your limits and learn new things.

Hilary Cave

Home: New Zealand

Background: Hilary loves to help others have their own adventures, even if it is just a short stroll off the beaten track. Whether working as ski patrol or as a ski guide, she feels invigorated in the mountains.

Language: English

Favorite Expedition: Paradise Harbor, Antarctica.

Advice: Take time to meet others on the voyage, ask open questions – you will be surprised at the variety of backgrounds and experiences people bring.

Roger Kirkwood

Home: Australia

Background: Roger's love of scuba diving and uncovering what lies beneath the surface led him to pursue a career in marine biology. When researching some of the world's most unique marine life, he developed a love for the white continent that has seen him returning for decades.

Language: English

Favorite Expedition: Antarctic Peninsula to see it in different times of the season.

Advice: Relax. Let it seep in, and then leave, feeling happy and refreshed.

Alex Cowan

Home: Scotland

Background: Alex has a varied background as a geologist, a mountaineer and a professional yachtsman. Since 2011, he has guided in Svalbard, Antarctica, South Georgia and Greenland.

Language: English

Favorite Expedition: The High Arctic.

Advice: When you get home, think back to the amazing things you saw. These incredible vistas are real and they are always there, and they are special places that need to be protected.

Catherine Buckland

Home: United Kingdom

Background: In the profession of scuba diving, no two days are the same. For over 15 years Catherine has thrived in this challenging environment, working in a variety of marine-based positions.

Language: English

Favorite Expedition: Getting to scuba dive in Antarctica is so special. The sense of exploration and expedition, of seeing marine creatures that live in the harshest conditions, is beyond exciting.

Advice: Put down the camera, and just take it all in.

Antarctic Explorer Express

Antarctic Peninsula | 9 Days

The younger sibling to our full-grown Antarctic Explorer, the 9-day Antarctic Explorer Express, offers a similar itinerary but with a shorter duration. Travelers who are strapped for time will find this quick trip to the Antarctic Peninsula the perfect fit. A flight over the Drake Passage in one direction combined with an action-packed time in the Antarctic Peninsula, our Antarctic Explorer Express voyages are tailored for travelers seeking a brief adventure to the frozen continent. You are guaranteed at least three days in the Antarctic Peninsula, where your days will be filled with penguin and seal encounters, Zodiac excursions to explore rugged coastlines and majestic icebergs, and possible visits by curious whales.

HIGHLIGHTS

- The large number of whales present in late summer can provide unforgettable moments with these magnificent giants
- See penguins begin to moult and gentoo penguin parents feeding their chicks

Itinerary Overview

DAY 1 Arrive in Ushuaia and transfer to your hotel.

DAY 2 Embark in Ushuaia.

DAYS 3–4 Drake Passage crossing.

DAYS 5–12 It is almost impossible to describe the feeling of arriving in Antarctica. Spotting your first iceberg and taking a deep breath of some of the most freshest, crispest air on earth is an experience that will stay with you forever. Over the next eight days, you will settle into the natural rhythm of life on the Antarctic Peninsula. Your experienced Expedition Team, who have made countless journeys to this area, will use their expertise to design your voyage from day to day, choosing the best options based on the prevailing weather and wildlife opportunities. Enjoy Zodiac cruises along spectacular ice cliffs or among grounded icebergs, keeping watch for whales, seals and porpoising penguins. While ashore, you can stroll along the beach and photograph the wildlife and the magnificent scenery, visit penguin rookeries and discover historical huts. With extra time for exploration, we plan to show you our favorite spots across the peninsula and possibly discover new future favorites along the way.

DAYS 13–14 Drake Passage crossing.

Across the Antarctic Circle

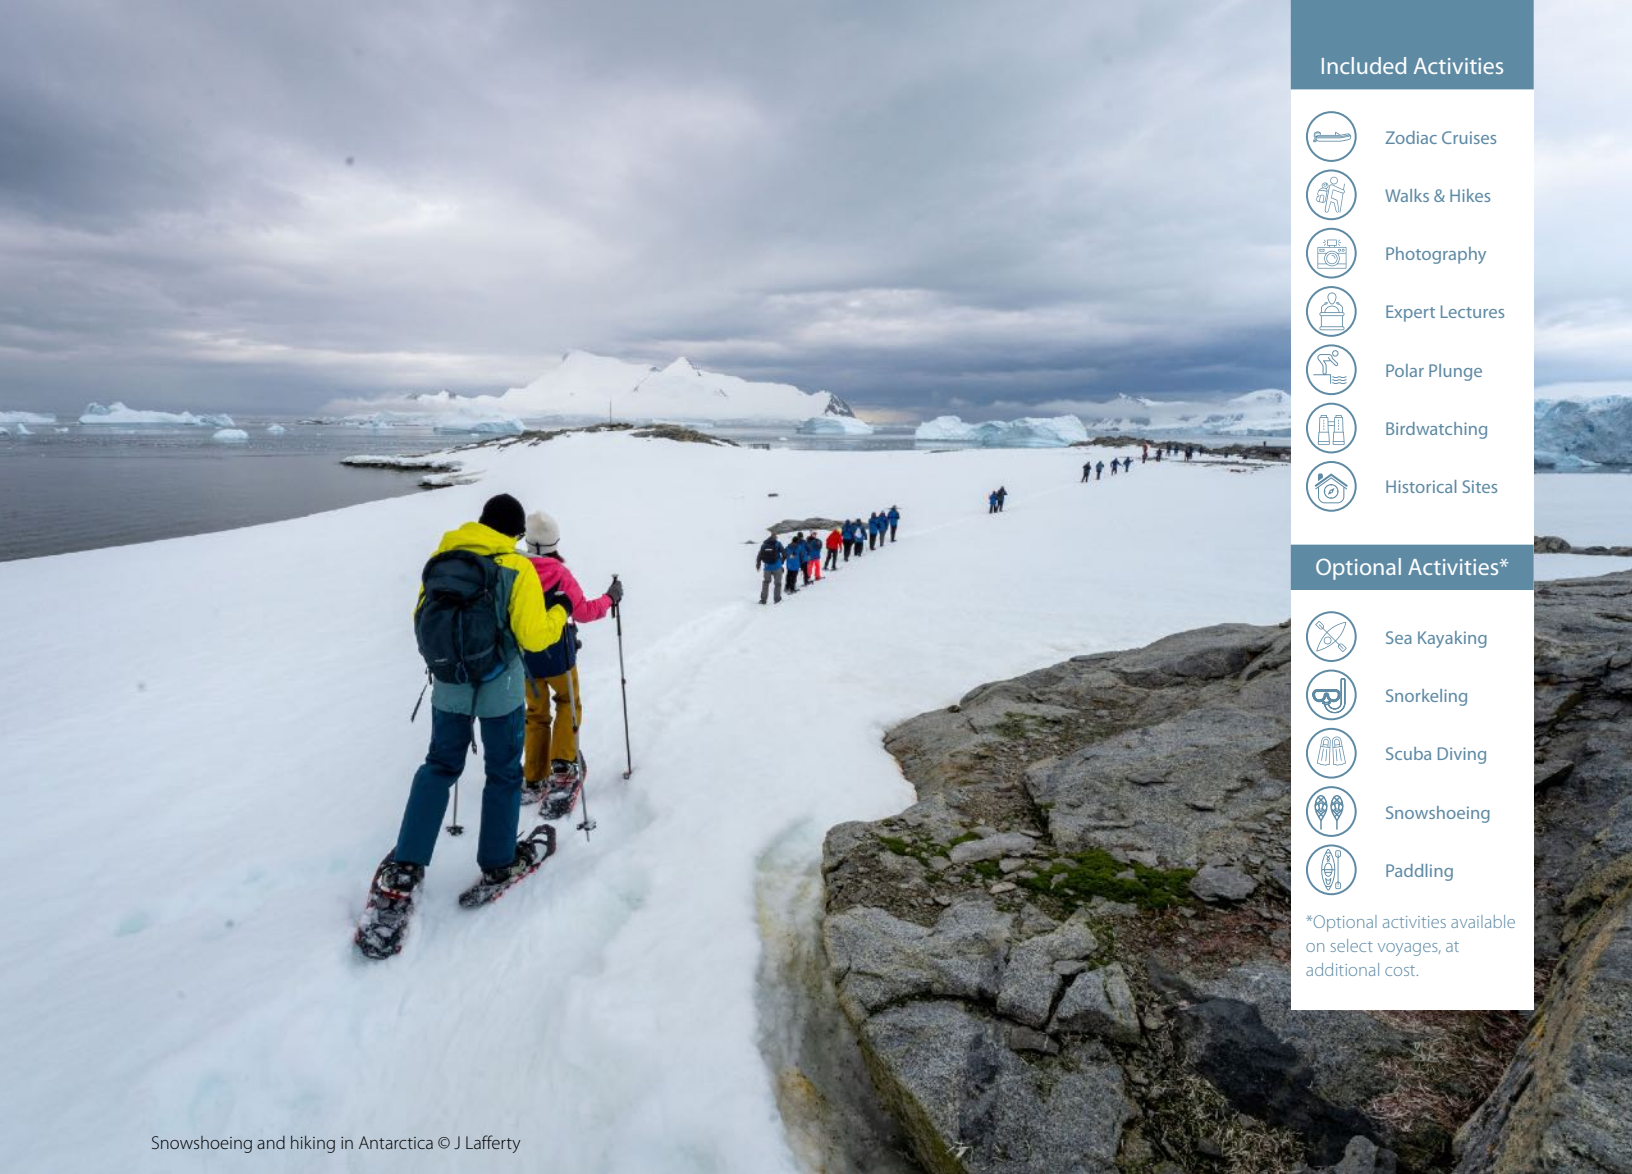

Antarctic Peninsula, Antarctic Circle | From 13 Days

Venturing below the Antarctic Circle is about more than just earning bragging rights. It is the chance to enter a different world that is rarely seen, and with its great swathes of pack ice and dreamlike icebergs, it feels more isolated and colder than farther north. Thread through narrow channels where scenes of ice-clad mountains, feeding whales and lively penguin colonies become lasting memories.

HIGHLIGHTS

- Experience a toast at the Antarctic Circle, 66° 33' south (conditions permitting)
- Enjoy a splendour of wildlife activity as birds, seals and whales race to fatten up for winter
- Visit fascinating historical sites
- Zodiac-cruise with the hope of spotting leopard and crabeater seals

Itinerary Overview

DAY 1 Arrive in Ushuaia and transfer to your hotel.

DAY 2 Enjoy a short sightseeing tour of Ushuaia before embarkation.

DAYS 3–4 At sea.

DAYS 5–12 The western side of the Antarctic Peninsula is ours to explore and our flexible itinerary allows us to make the most of local conditions to Zodiac-cruise or kayak among the ice, hoping to see whales and other marine wildlife. Set foot on the white continent and its offshore islands to visit penguin rookeries, seal haulouts, historical sites and spectacular viewpoints. As you weave through pack ice and narrow channels, scenes of ice-clad mountains and abundant wildlife in its natural habitat will be etched into your memory for years to come. Raise a toast to mark the occasion as you join a lucky group of adventurers to cross 66° 33' south (approximately), below the Antarctic Circle.

DAYS 13–14 At sea.

Wild Antarctica

Antarctic Peninsula & Weddell Sea | From 12 Days

Famed for its tremendous tabular icebergs, year-round sea ice, fascinating fossils and the pivotal role it played in Shackleton's *Endurance* expedition, the Weddell Sea offers unsurpassed opportunities for exploration. Embark on a true Antarctic expedition as we not only explore the western side of the Antarctic Peninsula but also attempt to venture east towards the icy perimeter of the Weddell Sea, which is often guarded by impenetrable pack ice and home to awe-inspiring tabular icebergs.

HIGHLIGHTS

- Be awed by the array of wildlife that play and hunt in Antarctic Sound
- Marvel at gigantic tabular icebergs in the Weddell Sea
- Learn about the incredible fossil-rich volcanic islands from our onboard paleontologist

Itinerary Overview

DAY 1 Arrive in Punta Arenas and transfer to your hotel.

DAY 2 Fly to King George Island for embarkation.

DAYS 3–11 In the days ahead, immerse yourself in the unforgettable landscapes of the white continent. Sail across the Bransfield Strait into the other-worldly landscape of the Antarctic Sound. If sea ice conditions allow, venture east into the Weddell Sea, known for its impressive sea ice and large icebergs. Feel your pulse quicken as vast tabular icebergs pass close by. We aim to land on fossil-rich islands for exploration and to hear from our expert palaeontologist. Roam the shoreline near where Adélie, gentoo and chinstrap penguins waddle, and delight in their charismatic antics. Zodiac-cruise in search of seals, whales and their calves. We aim to land on the Antarctic continent and the many islands surrounding the peninsula, to visit historical sites and to experience the unforgettable landscape up close.

DAYS 12–13 At sea.

DAY 14 Disembark in Ushuaia.

Deep Weddell following Nordenskjöld

Antarctic Peninsula, Weddell Sea | 14 Days

A new voyage that focuses on the Weddell Sea region more than any of our other voyages. The Weddell Sea is renowned for vast amounts of ice – sea ice, pack ice and gigantic icebergs. Even icebreakers have difficulty getting around in the Weddell Sea. For adventurous expeditioners, a visit to the area can be rewarding, not least for its historical associations. In 1902, Swedish explorer Otto Nordenskjöld was forced to spend two winters on the Weddell Sea, and the main expedition hut built on Snow Hill Island still stands. The area is also central to Ernest Shackleton's well-known expedition when the *Endurance* became trapped in the ice. In addition to ice-watching opportunities, the area is also rich in wildlife, geology and palaeontology. We hope to see ice seals such as crabeater and leopard seals. On the shores, you can scour for ancient fossils of gastropods, large clams and spiral-shaped ammonites.

HIGHLIGHTS

- Hear tall tales of heroic exploration, tragedy and triumph in the Weddell region
- With favorable conditions, we hope to spend more time in the Weddell Sea region than on any other of our voyages
- Be awestruck by the array of wildlife that hunt and play in the Antarctic Sound

Included Activities

- Zodiac Cruises
- Walks & Hikes
- Photography
- Expert Lectures
- Polar Plunge
- Birdwatching
- Historical Sites

Optional Activities*

- Sea Kayaking

Itinerary Overview

DAY 1 Arrive in Ushuaia and transfer to your hotel.

DAY 2 Embark in Ushuaia.

DAYS 3–4 Drake Passage crossing.

DAYS 5–11 A voyage to the Antarctic Peninsula is by its very nature a genuine adventure, but to venture to the Weddell Sea region, located on the wild eastern side of the peninsula, is turning up the dial a few notches. The Weddell Gyre pushes enormous amounts of ice from the Filchner-Ronne Ice Shelf up towards the area near the Antarctic Sound, blocking the entrance to the Weddell Sea. While a considerable aspect of a voyage to the Weddell Sea is the thrill of not knowing if the ice will allow us to enter its frozen realm, a visit to the region still has numerous rewards.

Gigantic icebergs, the size of skyscrapers, dwarf our Zodiacs as we attempt to push through seemingly impenetrable sea ice to land on remote beaches where ancient fossils can be found. The wildlife we may encounter in the Weddell Sea region makes the attempt worthwhile. The abundant ice attracts ice seals, such as crabeater, leopard and Weddell seals, which all breed and birth on sea ice. Large numbers of orca, minke and humpback whales are also commonly seen here.

DAYS 12–13 Drake Passage crossing.

DAY 14 Disembark in Ushuaia and continue your journey.

Adélie penguins on a floating iceberg, Weddell Sea, Antarctica

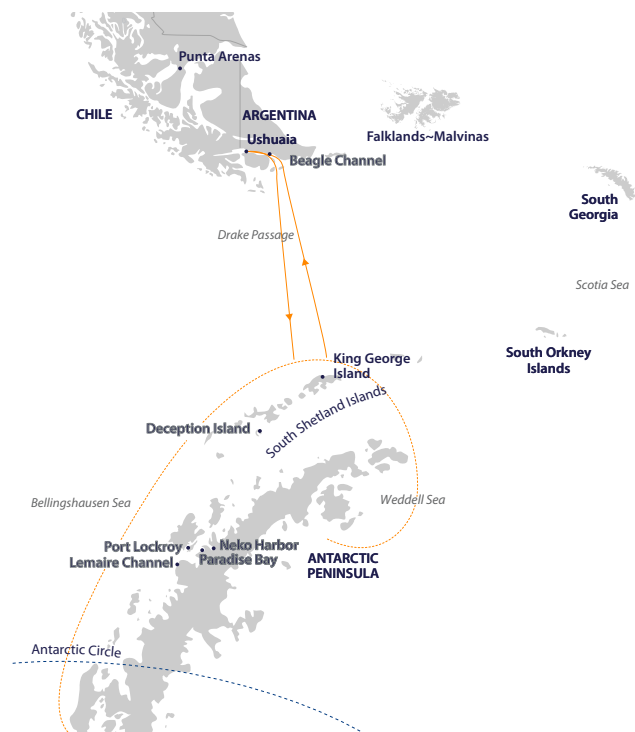

Circle and Weddell

Antarctic Peninsula, Antarctic Circle, Weddell Sea | 18 Days

Antarctic adventurers can aim to tick two boxes off their must-do list on this voyage, where they have the opportunity to visit regions in Antarctica that most people will never experience – not even among those who have been to Antarctica – below the Antarctic Circle and attempting to forge a path through the ice in the Weddell Sea. As you venture south on the western side of the Antarctic Peninsula, passing spectacular, towering cliffs and glittering icebergs, there is a chance you may see Adélie penguins and ice seals such as leopard and crabeater seals resting on ice floes. In the Weddell Sea, and under favorable weather and sea ice conditions, be prepared to encounter an unimaginably spectacular world of icy landscapes. It is an icy realm that few have been fortunate to experience.

HIGHLIGHTS

- Raise a toast to celebrate crossing the Antarctic Circle (weather and conditions permitting)
- Marvel at some of the most dazzling icy landscapes on the peninsula as we forge our way south to the Antarctic Circle
- With favorable weather and conditions, we hope to explore the mind-blowing, icy realm of the Weddell Sea
- We hope to encounter unique ice seals lounging on sea ice

Itinerary Overview

DAY 1 Arrive in Ushuaia and transfer to your hotel.

DAY 2 Embark in Ushuaia.

DAYS 3–4 Drake Passage crossing.

DAYS 5–15 To be part of a voyage that attempts to explore the remotest and wildest parts of this region on the planet, gives you more than basic bragging rights. Venturing below the Antarctic Circle, an imaginary line at latitude of 66° 33' south, is a chance to enter a different world that is rarely seen. It feels more isolated and distant than farther north, with great swathes of pack ice and dreamlike icebergs. Thread through pack ice and narrow channels where scenes abound of ice-clad mountains, whales fattening up on krill, leopard seals patrolling the waters for vulnerable penguins, and snow petrels soaring above. Join an exclusive group of adventurers as we raise a glass to toast our arrival below the Antarctic Circle. As we return north, we make our way to the Weddell Sea, where we plan to visit some of our favorite places around the Antarctic Peninsula. We explore coastlines by Zodiac, landing on beaches where fur seals frolic and fledging penguins take to the waters for the first time. As we approach Antarctic Sound, gateway to the Weddell Sea, we hope for favorable weather and ice conditions to grant our good ship entry to its frozen realm. The Weddell Gyre pushes enormous amounts of ice up towards the area near the Antarctic Sound, blocking the entrance to the Weddell Sea, but a visit to the region still has its rewards.

We hope to gaze upon gigantic tabular icebergs the size of skyscrapers as we attempt to push through seemingly impenetrable sea ice in our Zodiacs to land on a beach, where ancient fossils can be found. The wildlife we hope to encounter in the Weddell Sea region makes the attempt worthwhile. The abundant ice attracts ice seals such as crabeater, leopard and Weddell seals, which all breed and birth on sea ice. Large numbers of orca, minke and humpback whales are also commonly seen here.

In Shackleton's Footsteps

Antarctic Peninsula, Weddell Sea & South Georgia | 20 Days

Follow in the footsteps of 'The Boss' on this quintessential polar voyage, from the serene ice of the deep south to the subantarctic wildlife paradise of South Georgia. Experience the Antarctic Peninsula and set foot on the continent before making your way north to the spectacular Antarctic Sound, gateway to the Weddell Sea. Embrace the adventure as you voyage farther east, navigating as far as possible into the Weddell Sea, where Shackleton's *Endurance* met its fate. From here set a course to Elephant Island, the desolate outpost where Shackleton and his men finally made landfall after 497 days at sea. On the final leg of your voyage, follow the course of the *James Caird* across the Scotia Sea to South Georgia, where Shackleton's voyage reached its remarkable conclusion.

HIGHLIGHTS

- Learn about the fascinating history of Shackleton's *Endurance* expedition, including the 2022 discovery of the shipwreck
- Marvel at enormous tabular icebergs that escape the Weddell Sea into the Antarctic Sound, also known as 'Iceberg Alley'
- Hike from Fortuna Bay to Stromness, repeating the final leg of Shackleton's remarkable traverse of South Georgia

Did you know?

After a challenging search, polar history was made when the wreckage of Shackleton’s *Endurance* was discovered in the Weddell Sea, mostly intact, on 5 March 2022. Researchers aboard the polar research vessel S.A. *Agulhas II* were astonished to find the well-preserved vessel only 6.4 kilometers (4 miles) south of the position calculated by Captain Worsley in 1915, when he last laid eyes on his ship.

Itinerary Overview

DAYS 1–2 Arrive in Ushuaia and transfer to your hotel. Enjoy a city tour before embarkation in the late afternoon.

DAY 3 Sail to Cape Horn, and perhaps enjoy a landing.

DAYS 4–5 Slow-cruise the legendary Beagle Channel, soaking in breathtaking scenery along Glacier Alley and in hidden fjords.

DAY 6 Zodiac-cruise the wildlife-rich waters of Francisco Coloane Marine Park, enjoying the scenery while keeping watch for marine birds, dolphins and hopefully, whales.

DAY 7 Be out on deck to watch the captain skillfully navigate Kirke Narrows to reach Puerto Natales.

DAYS 8–9 Spend two days exploring and hiking in Torres del Paine National Park, renowned for its majestic granite towers, jaw-dropping landscape and unique wildlife. Enjoy an overnight hotel stay away from the ship.

DAYS 10–11 Your experienced captain continues to navigate our vessel through more channels during periods of slack water. We sail to a number of glaciers, including Pío XI, which is not only one of the most spectacular, but also one of the only glaciers in Patagonia that is advancing rather than receding. We call into a number of tiny coastal hamlets to meet locals who otherwise live an isolated existence from the rest of Chile. Stroll along wooden walkways that connect local communities and perhaps purchase some local handicrafts.

DAY 12 From the comfort of your private balcony or on one of the many observation areas on board, enjoy the spectacular scenery as we sail through the fjords and channels of northern Patagonia before reaching Moraleda Channel with views of the Melimoyu volcano looming on the horizon.

DAY 13 Spend time exploring the coastline of Tic-Toc Bay, an area renowned for the seasonal presence of blue whales and other species of cetaceans, marine mammals and seabirds.

DAY 14 Discover the charms of Castro, the capital of Chiloé Province, before visiting the World Heritage churches of the region.

DAY 15 Disembark in Puerto Montt, capital of Chile’s Lake District, surrounded by volcanoes, where you can extend your stay or continue your onward journey with a transfer to the airport.

Buenos Aires & Iguazu Falls Explorer

+ 6 Days, 5 Nights

Combining metropolitan culture with dazzling nature, this is an ideal stopover before or after your Antarctic voyage. Argentina's capital is synonymous with tango, football fever, world-class cuisine, and political passion. Iguazu Falls is an extraordinary natural wonder that you must experience.

Santiago & Valparaíso Explorer

+ 6 Days, 5 Nights

In a valley surrounded by the Andes, Santiago is an easy stopover that offers superb scenery and local cuisine. In Valparaíso, a UNESCO World Heritage Site, explore the vineyards and behold the creative energy of vibrant street art, and panoramic views of the Pacific Ocean.

Patagonia EcoCamp

+ 5 Days, 4 Nights

Uniquely Patagonian, the Cascada EcoCamp offers an environmentally friendly way to experience nature in comfort. Spend your days exploring Torres del Paine National Park through various short walks or a drive through the park, showcasing views of Lake Nordenskjöld and Lake Pehoe, and take a delightful evening cruise across glacial Grey Lake.

Atacama Desert Adventure

+ 4 Days, 3 Nights

The Atacama Desert is the driest desert in the world. Customise your itinerary from a selection of activities that best suit your needs. From Valle de la Luna (Moon Valley) to salt flats where flamingos roam, or a geothermal field of steaming geysers, the choice is yours.

Discovering the Incas

+ 6 Days, 5 Nights

Begin in Lima, the capital of Peru. Though its colonial centre is preserved, Lima is a bustling modern metropolis and one of Latin America's largest cities. Fly to Cusco, gateway to Machu Picchu, once capital of the Inca Empire and now known for its archaeological remains and Spanish colonial architecture. Follow the trail of the Incas to the Sacred Valley and breathtaking Machu Picchu.

Peru Uncovered

+ 8 Days, 7 Nights

Peru is a mecca for archaeologists and researchers who continue to uncover over 20,000 years of Peruvian history. Peru is one of the most geo-diverse locations on the planet and a place where the locals transform produce into gastronomic masterpieces for you to enjoy. Sample the delights in Lima and Cusco before discovering Machu Picchu, the Lost City of the Incas.

Ecuador's Galápagos Islands

+ 7 Days, 6 Nights Aboard *La Pinta*

Picture yourself snorkeling or kayaking among sea lions, spotting a giant tortoise or trekking across ancient lava flows dotted with iguanas. On a small-ship Galápagos Island tour, explore one of the planet's unique places and home to wildlife found nowhere else on earth.

Easter Island

+ 4 Days, 3 Nights

Discover the monumental stone statues and an array of natural attractions on the most remote island on earth. A UNESCO World Heritage Site and national park, Easter Island is famed for its remarkable archaeological relics.

Amazon Cruise

+ 5 Days, 4 Nights Aboard Delfin

Aboard a boutique Delfin vessel, discover the rich rainforest ecosystem of the Amazon. Spanning more than two million hectares, the Pacaya-Samiria National Reserve is the largest protected flooded forest in the world. Spot incredible wildlife from the comfort of your vessel or explore ashore on a number of soft-adventure excursions.

Monteverde and Arenal

+ 6 Days, 5 Nights

Look for quetzals in the Monteverde Cloud Forest Reserve, one of the most biodiverse tropical cloud forests in the world. On a garden walk, encounter colorful butterflies, or take a boat ride on Lake Arenal, which offers incredible views of Arenal Volcano, and afterwards soak your weary muscles in natural hot springs.

Taste of Buenos Aires

+ 4 Days, 3 Nights

Located on the banks of the Rio de la Plata, Buenos Aires is one of the largest cosmopolitan cities in Latin America, a major world port and Argentina's commercial and social center. Buenos Aires is graced with elegant European architecture and a renowned cultural scene, including world-class street art, iconic tango, and superb wine and cuisine.

Taste of San José

+ 3 Days, 2 Nights

Costa Rica, meaning 'rich coast', is blessed with abundant nature, pristine beaches, immense biodiversity and welcoming people. When booking this city stay add-on, we give you a range of options to explore San José. Choose from walking tours to bike tours, visits to the historical towns of Cartago or Grecia, and opportunities to sample tasty food and coffee!

Taste of Santiago

+ 4 Days, 3 Nights

A major gateway to South America and popular stopover city, Chile's capital offers spectacular views of the high Andean peaks to the east. Visit the main attractions and important cultural, cosmopolitan and artistic sights on a full-day guided cultural tour. Sample some of the culinary delights and specialties the region has to offer.

Ushuaia City Stay

+ 2 Days, 1 Night

The most southerly city in the world and the main gateway to the Antarctic, Ushuaia is an ideal place to extend your stay. Visit Tierra del Fuego National Park, where lakes, lagoons and rivers flow into the Beagle Channel. Hike from Roca Lake to Lapataia Bay with views of Cónдор Mountain along the way.
